Certificate of Conformity

digitalSTROM marks license

digitalSTROM AG
Brandstr. 33
8952 Schlieren
Switzerland

is authorized to use the legally protected and registered marks as shown below for the type listed in this document.

The mark is to be used on the certified product itself and on the product packaging and advertisement material of the certified product. The digitalSTROM-ready mark signals plug and play compatibility to the end user. The mark is shown whenever possible green on white (positive), but can also be white on green (negative). Illustration size shall be 10mm wide or larger.

This marks approval is valid for the following type:

digitalSTROM RT-SDM200 Firmware Version 3.5.5

The type listed above conforms to the digitalSTROM device profile for push-button input device security : panic and was tested and certified according to the following digitalSTROM norms:

digitalSTROM Standard Device Behavior V 1.1

digitalSTROM Allianz
